BULBS for a Colorful

Hyacinth

Starting with Winter Aconite and sturdy little Snowdrops pushing through the frosty, snow-patched ground and continuing through the latest blooming Tulips, you may enjoy in your own garden a succession of color and enchanting flower forms.

Bulbs are one of the easiest garden items to plant—easiest to care for—and yet even the most amateur gardener is rewarded with a host of blooms in exquisite colors.

These entirely dependable plants bloom year after year without care or lifting.

DUTCH HYACINTHS FOR HEADY FRAGRANCE AND COLOR

Full Flower Heads in
ROSE, WHITE and BLUE

Suitable for beds, window boxes, edgings, Hyacinths are especially fine for formal or "pattern" plantings because of their uniformity of height.

Top Grade Bulbs—6 for \$1.15, 10 for \$1.65, 25 for \$4.00

GRAPE HYACINTHS (Muscari)

So named because of their Grape like fragrance and fruit-like quality of bloom.

The darlings of the rock garden! Hardy and will do well anywhere. Must be planted in clumps or groups for good effect.

BLUE GRAPE HYACINTHS.....25 for \$1.00, 100 for \$3.50

WHITE GRAPE HYACINTHS.....25 for \$1.25, 100 for \$4.00

SCILLA

Excellent for naturalizing and rock gardens. Plant in groups for best showing.

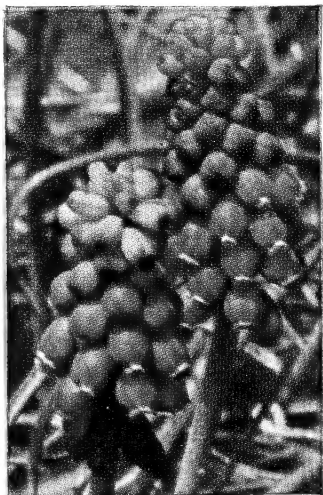

Blue (*Scilla sibirica*). Delightful, sky-blue, bell-like flowers on tiny stems, 4 in. tall, appearing as the snow melts. Does well in sun or shade. Hardy. Plant 4 in. deep. 25 for \$1.25, 100 for \$4.00.

White (*Scilla campanulata alba*). White form of *Scilla sibirica* and equally hardy. Plant 4-6 in. deep. 25 for \$1.25, 100 for \$4.00.

Pink (*Scilla campanulata rosea*). A pink form to add variety to your garden. 25 for \$1.25, 100 for \$4.00.

SNOWDROP (Galanthus)

Every gardener looks forward to seeing these small white flowers hail the advent of Spring. Plant thickly to achieve a showing with these tiny nodding blooms. Plant 3 in. deep. 25 for \$1.25, 100 for \$5.50.

Breeder Tulips

10 for \$1.50, 25 for \$3.00

This group includes the mellowest colors of all the Tulips—rich bronzes, deep yellows, oranges and purples in the loveliest blends imaginable. Egg-shaped flowers open during the day; close at night. Stems as long as Darwins. Breeders are centuries old—originating from the very, very old Dutch Tulips. Middle to late May blooms.

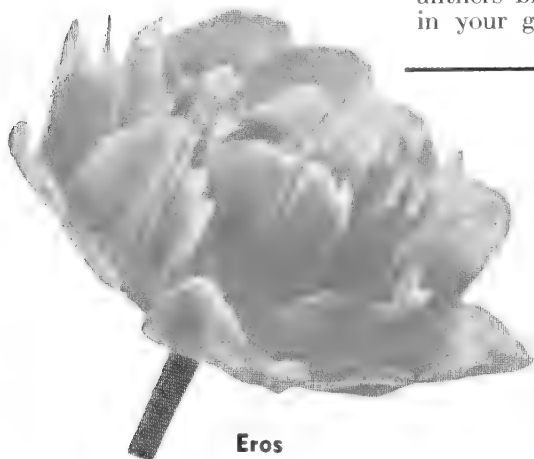

DILLENBURG. A lovely, rich orange-terra cotta diffusing to yellow at the edges. A beautiful blend of color tones. Height 26 in.

LOUIS XIV. Most fascinating Breeder. Deliciously fragrant. Blackish purple at the base and main part of the petals yields gradually to edges of bronze-gold—a wealth of color tones. Height 30 in.

TANTALUS. Enchanting light yellow, overlaid with a delicate violet-gray. Edges are yellow; anthers black. Striking beauty in your garden.

Bunch-Flowered Tulip

MME. MOTTET. This type of Tulip produces three or more flowers on each stem. Very unusual. Rosy-red, shaded purple. 24 in. 10 for \$1.50, 25 for \$2.75.

Planting Suggestions

If possible, prepare soil a week in advance digging to a depth of at least 10 inches. Manure should not come in direct contact with bulbs but may be mixed with soil immediately below them. Bulbs should be set in upright with no air pockets around them. Set in ground in November and do not mulch until ground is frozen.

Bulb Planting Guide

Choice PEONIES — A Rosedale Specialty

The Peonies listed have been selected because of their superiority in growing habits, sturdiness, fragrance, form and foliage—all entirely dependable stock, the new as well as the established varieties.

The propagation and growing of Peonies at Rosedale has had such special attention and care for so many years that we feel we can rightfully determine which of the many varieties are best for growing in this area.

Size of Peony Root: Rosedale Peonies are offered in a size one year older than is usual. A "division" (the size of root stock usually sold) at Rosedale has at least three to five eyes, and has been planted and grown under ideal conditions for one year before being offered for sale. These plants develop new roots and large, husky eyes which generally bloom the following June when planted in the Fall.

Culture: September and October are the months to plant Peonies for blooms in June. Prepare the soil to a depth of 18 inches, mixing in liberally bonemeal and pulverized sheep manure. Do NOT use fresh manure near the roots. Plant the root division so that the prominent "eyes" are 2 inches below the surface of the ground. Firm soil well around the roots.

THE VERY FINEST, DEEP RED PEONY EVER INTRODUCED

It is difficult to capture in a photograph the deep, rich red coloring and captivating form of this excellent new Peony. To assure ourselves, and in turn you, of the exceptional quality of this variety, we grew this in our nurseries for three years before offering it for sale for the first time three years ago. (Perhaps some of you saw it growing just inside the picket fence around the office.) It justified everything the originator claimed for it—"pure red, heavy foliaged and vigorous growing midseason variety." This was substantiated by his propagator: "The bloom is the largest, the foliage the greenest and most beautiful, the plant habits perfect, the stems strong, color and fragrance excellent." Nothing more need be said. We recommend this Peony unqualifiedly.

The Tree of Today and Tomorrow

The MORaine LOCUST

Plant Patent No. 836

This beautiful new form of Locust is round-headed when young, tall and vase-shaped when older, attaining a height of 80 to 100 feet.

The MORaine LOCUST is vigorous and fast growing, having none of the undesirable characteristics of the old common Locust such as seed pods and thorns.

This new, desirable tree is outstanding because of its hardiness—thriving under city conditions and grows well in heavy or light soil from Texas to Ontario.

Withstands drought or flood but prefers sunny exposed situations.

Easily transplanted and stands pruning well, although very little is necessary since the lower branches self-prune as the top grows wider.

We invite you to visit Rosedale Nurseries and inspect these fine trees.
